About This Game

Building Block Heroes is a puzzle block platformer in which you use coloured blocks to build pathways around each level to free the Jollyfolk from their cages. Simultaneously control both building blocks and heroes, with a friend or by yourself, in this colourful romp through a cartoony and exotic hand-painted world. Explore different lands, use special powers, and combat various enemies as you construct the means to save the Jollyfolk!

A True Puzzle Platformer Game

- Use falling blocks to build your own platforms and pathways around over 100 levels!
- Build your own stairways and bridges to navigate around obstacles and pits!
- Use blocks to avoid enemies that try to stop you from reaching the Jollyfolk.
- Each area in the game introduces a new challenge - from moving platforms to irresistible ocean currents that sweep you away, no two areas are alike!
- Compete for faster times and beat your own personal records!

Characters

- Four unique characters, each with their own unique abilities!
- Destroy blocks to build up your power meter.
- Dash across gaps as Heatwave, conjure blocks of ice as Ice Queen, soar through the air as Airhead, or smash through blocks as Dirtbag!

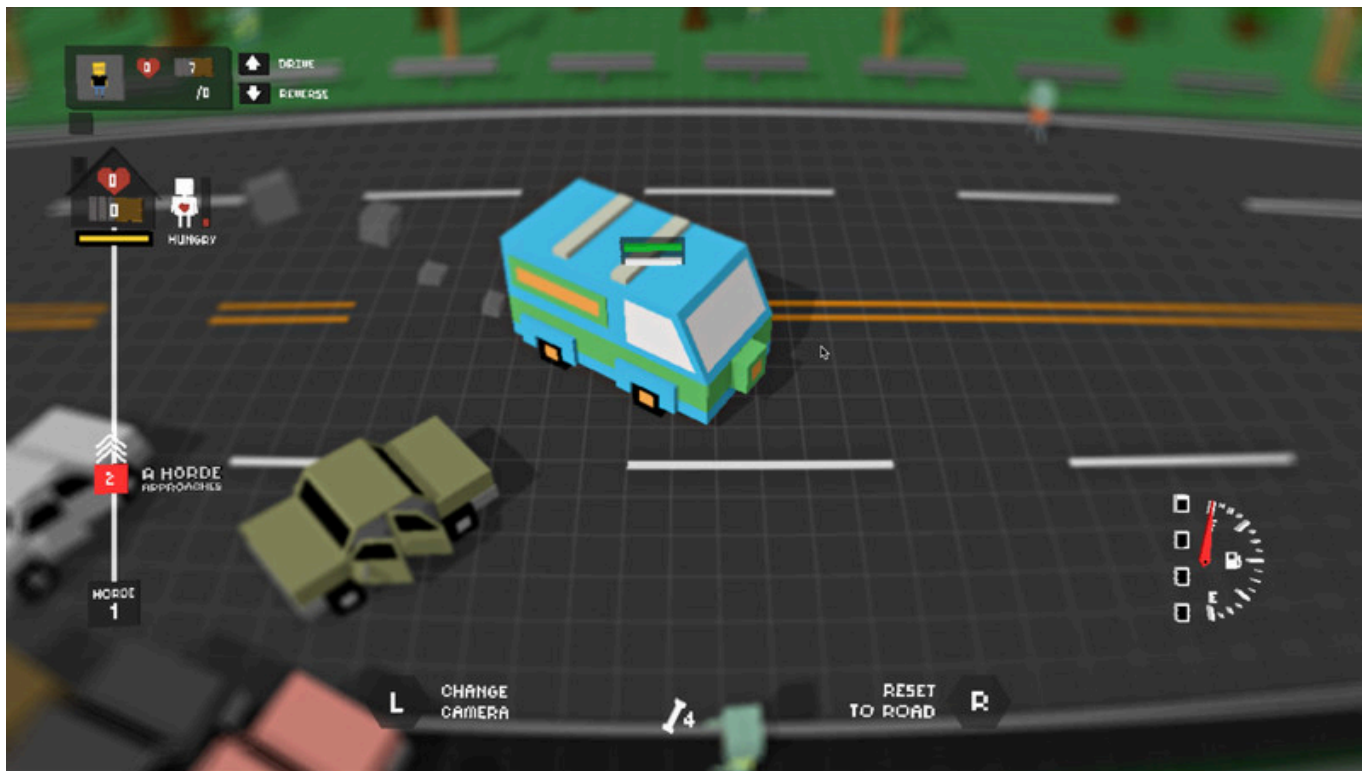

Bosses

- A puzzle game with boss fights! Bosses will do everything in their power to smash your colourful creations.
- Build your way to reach each boss's weak point as they launch powerful attacks to stop you.
- This game is not turn-based - bosses aren't going to simply stand there and let you work your way towards them! Avoid attacks while you build!
